

Training, Consulting & Workshops

Sometimes there's no option short term other than getting practical, hands-on support for a key sales presentation. But when taking the longer view, wouldn't you be better placed to improve future win rates if your team was fully empowered ... where you have been coached and trained in those techniques and processes that allow you to take total control over presentation development and delivery? Then your own teams and people directly enjoy the benefits of better presentations and improved win rates.

Quantum uses a proven step-by-step method to refine and hone your presentations' value proposition so that the true value of your company's solution is immediately understood by prospects and clients. The process starts with a highly interactive sales messaging workshop involving your key stakeholders. The results of that are documented - as an "Info Flow" - and subsequently tested as a storyboard (your presentation semi-visualised). Then, once everyone is happy, and the value proposition has been rigorously put through its paces, the agreed sales messages are taken into your sales presentations in the form of impactful visuals. You sell more effectively than ever before using the combination of a crisp, resonant value proposition and vivacious visuals.

Duncan [Cranmer of the Winning Proposal] is a strategic thinker and skilled facilitator who is expert at getting a group to push beyond surface knowledge to truly understand new concepts. He is quick on his feet and able to command an audience. Highly professional and easy to work with. Duncan would be an asset to any organisation and someone I highly recommend.
